

LibreView

Summary

LibreView[®] is a free, secure, cloud-based diabetes management system that allows patients to share their reports with their healthcare professional securely and confidently.

With LibreView, FreeStyle Libre sensor glucose data from all your patients is in one secure cloud-based solution that the whole care team can access from their own accounts.

Simulated data for illustrative purposes only. Not real patient or data.

Features

SIMPLE UPLOAD

Your patients can automatically sync their data to LibreView when they are scanning their sensor with the FreeStyle LibreLink app.^{oΔ}

EASY AND REMOTE ACCESS

Access your patient's complete glucose picture online anytime, anywhere from any internet-connected device.^o

CONNECTED CARE

Set up your practice on LibreView, add team care members and securely share patient information with your staff.

POPULATION MANAGEMENT

With the My Patient LibreView dashboard create filters to help flag and annotate patient groups you want to monitor.

◇ The FreeStyle LibreLink app and the FreeStyle Libre reader have similar but not identical features. Finger pricks are required if readings do not match symptoms or expectations. The FreeStyle Libre sensor communicates with the FreeStyle Libre reader that started it or the FreeStyle LibreLink app that started it. A sensor started by the FreeStyle Libre reader will also communicate with the FreeStyle LibreLink app. The FreeStyle LibreLink app is only compatible with certain mobile devices and operating systems. Please check the Smartphone Compatibility Guide before using the app. Use of FreeStyle LibreLink requires registration with LibreView.

⚡ The LibreView website is only compatible with certain operating systems and browsers. Please check www.libreview.com for additional information.

△ Data captured by the FreeStyle LibreLink app will be automatically uploaded to LibreView when the phone on which it's running is connected to the Internet.
