Quick Start Guide for FreeStyle Libre 2 Reader

**Setup Overview**
Refer to your User’s Manual for full System instructions and information.

---

1. **Assemble and Apply Sensor to the back of your upper arm**

   **STEP 1**
   Select site on back of upper arm. Do not use other sites as these may result in inaccurate glucose readings. 
   **Note:** Avoid scars, moles, stretch marks, lumps, and insulin injection sites. To prevent skin irritation, rotate sites between applications.

   **STEP 2**
   Wash site using a plain soap, dry, and then clean with alcohol wipe. Allow site to air dry before proceeding.

   **STEP 3**
   **CAUTION:** Sensor codes must match on Sensor Pack and Sensor Applicator or glucose readings will be incorrect.

---

2. **Start new Sensor with Reader**

   **STEP 4**
   Line up dark mark on Sensor Applicator with dark mark on Sensor Pack. On a hard surface, press down firmly on Sensor Applicator until it comes to a stop.

   **STEP 5**
   Lift Sensor Applicator out of Sensor Pack.

   **STEP 6**
   Sensor Applicator is ready to apply Sensor. 
   **CAUTION:** Sensor Applicator now contains a needle. Do not touch inside Sensor Applicator or put it back into Sensor Pack.

---

3. **Check your glucose whenever you want for up to 14 days.**

   **STEP 7**
   Place Sensor Applicator over site and push down firmly to apply Sensor. 
   **CAUTION:** Do not push down on Sensor Applicator until placed over prepared site to prevent unintended results or injury.

   **STEP 8**
   Gently pull Sensor Applicator away from your body.

   **STEP 9**
   Make sure Sensor is secure. Discard used Sensor Applicator and Sensor Pack according to local regulations.

---

**Get Ready**

**Prepare Sensor Applicator**

**Apply Sensor**

---

FreeStyle Libre
FLASH GLUCOSE MONITORING SYSTEM
### Setting Alarms

The Sensor automatically communicates with the Reader and can give you glucose alarms. Alarms are on by default. To change their settings or turn alarms off, follow these steps. **IMPORTANT:** Glucose alarms are an important safety feature. Please consult your health care professional before making changes.

#### STEP 3

**NOTICES**

- The Sensor is an important safety feature. Please consult your health care professional before making changes.
- Glucose alarms are an important safety feature. Please consult your health care professional before making changes.

#### STEP 1

Press Home Button to go to Home Screen. Touch .

#### STEP 2

Touch Alarms and then touch Change Alarm Settings.

#### STEP 3

Select and set your alarms. Touch done to save.

### Using Alarms

You must scan your Sensor to see your glucose reading.

- **Low Glucose Alarm:** Notifies you when glucose is below the level you set.
- **High Glucose Alarm:** Notifies you when glucose is above the level you set.
- **Signal Loss Alarm:** Notifies you when Sensor is not communicating with Reader.

#### When any alarm is on, sound/vibration and signal status display on the Home Screen.
