FreeStyle Libre Sensors Application Guide
Here are some tips you can use to help keep your sensor in place

WHEN SELECTING YOUR SENSOR APPLICATION SITE, REMEMBER TO

- Select an area on the back of your upper arm that generally stays flat (no bending or folding).
- Choose a site that is at least 1 inch (2.5 cm) away from an insulin injection site.
- Prevent discomfort or skin irritation by selecting a site other than the one most recently used.
- Make sure the site is clean-shaven to avoid interference with the sensor.

PREPARING THE SKIN’S SURFACE TO SET THE STAGE FOR OPTIMAL ADHESION

1. WASH
   Only use non-moisturizing, fragrance-free soap to wash the area where you’ll apply the sensor.

2. CLEAN
   Use an alcohol wipe to remove any oily residue.

3. DRY
   Allow your skin to dry fully before applying the sensor. This is especially important if you plan to apply the sensor after you shower or swim.

FRIENDLY REMINDERS OF WHAT TO AVOID BETWEEN YOUR SENSOR & YOUR SKIN

- Moisture of any kind
- Hair; consider shaving the application area
- Oily residue from soap, lotion, shampoo, or conditioner

You will not receive alarms or glucose readings while your phone is in airplane mode unless you enable Bluetooth. See reverse for Important Safety Information.
FOLLOW THESE STEPS WHEN APPLYING THE SENSOR

- Place the sensor applicator over the application site, press firmly and hold for a few seconds.
- Gently pull the sensor applicator away from your body.
- Make sure the sensor is secure by pressing the sensor down and running your finger along the sensor adhesive.

NOTE: Sensor pack and sensor applicator codes must match or glucose readings may be inaccurate.

CAUTION: Sensor applicators will contain a needle. Do not touch inside sensor applicator or place back inside sensor pack.

USING PRODUCTS WITH MOISTURIZING PROPERTIES CAN HELP YOU REMOVE YOUR SENSOR*

<table>

Important Safety Information

FreeStyle Libre 14 day system: Failure to use FreeStyle Libre 14 day system as instructed in labeling may result in missing a severe low or high glucose event and/or making a treatment decision, resulting in injury. If readings do not match symptoms or expectations, use a fingerstick value from a blood glucose meter for treatment decisions. Seek medical attention when appropriate or contact Abbott at 855-632-8658 or https://www.FreeStyle.abbott/us-en/safety-information.html for safety info.

FreeStyle Libre 2 and FreeStyle Libre 3 systems: Failure to use FreeStyle Libre 2 or FreeStyle Libre 3 systems as instructed in labeling may result in missing a severe low or high glucose event and/or making a treatment decision, resulting in injury. If glucose alarms and readings do not match symptoms or expectations, use a fingerstick value from a blood glucose meter for treatment decisions. Seek medical attention when appropriate or contact Abbott at 855-632-8658 or https://www.FreeStyle.abbott/us-en/safety-information.html for safety info.
