Make Every Minute Count

**AFINION™ HbA1c**

Consultations with patients who do not have their lab results are challenging and inefficient. Point-of-care HbA1c testing can improve operational efficiency and lead to increased patient motivation and satisfaction.\(^1\)\(^4\)

- **3-MINUTE TEST TIME**
- **HIGHLY ACCURATE RESULTS**
- **NO INTERFERENCE FROM COMMON Hb VARIANTS**
- **NGSP AND IFCC CERTIFIED**
The Afinion™ HbA1c is a simple fingerstick test that provides a patient’s HbA1c value within minutes, during the consultation.

- 1.5 μL sample volume
- Capillary and venous whole blood sample material
- Measuring range: 4%–15% HbA1c/20–140 mmol/mol HbA1c
- 3 months of room temperature storage
- Ready-to-use controls in two levels

**BENEFITS OF POINT-OF-CARE TESTING**

The 3-minute Afinion HbA1c test fits perfectly within the workflow:

‘Point-of-care HbA1c testing represents an opportunity for improved care of people with diabetes.’

‘Point-of-care testing for HbA1c provides the opportunity for more timely treatment changes.’

**IDF RECOMMENDATIONS**

International Diabetes Federation (IDF) recommendations for the use of HbA1c in type 2 diabetes:

- Diagnostic criteria: HbA1c ≥ 6.5% or HbA1c ≥ 48 mmol/mol
- Provide the HbA1c result, as measured at the site of care or in the laboratory, before the clinical consultation
- Measure HbA1c every 2 to 6 months depending on level, stability of blood glucose control and changes in therapy
